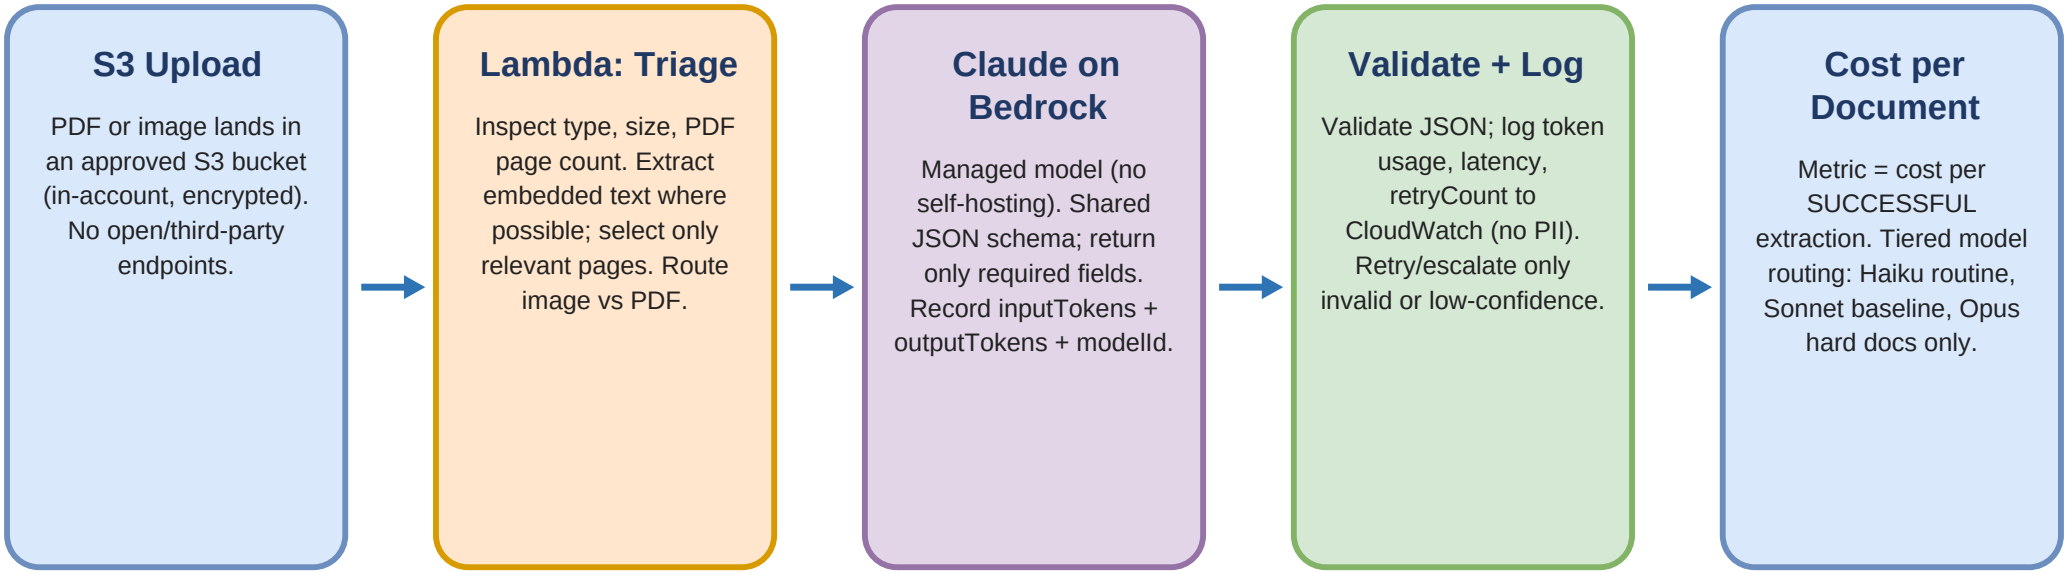
AI Image / PDF Extraction - Cost-Optimized Flow

Shared AI Data Prep for Option 1 & 2 - managed AWS + Bedrock only, measured per-document cost



? Managed AWS + Bedrock only - no open-source / self-hosted models.

? Biggest lever: don’t send a whole multi-page PDF when 1-2 pages suffice. Return only required JSON fields.

? AWS Budgets hard cap; figures measured in the POC (50-100 docs) before any quote.
