Option 3 — Agentic Hybrid Search ("Ask SPARKS" chat box)

Same chat box as Option 2. An agent decides which approved tools to call, reasons across steps, then generates a grounded answer. Each box is labeled with its AWS service + role.

Legend: pink = messaging/API · orange = AWS Lambda (compute) · teal = Amazon Bedrock (AI) · purple = OpenSearch · green = S3 storage · magenta = RDS · blue = user · grey = unchanged
